Introducing

# HYDROPROTECT

## ANOTHER FIRST FOR RHODIUS!

Our innovation blocks moisture for a longer-lasting improved power.

Even when they are not in use: resin-bonded wheels age and their performance diminishes over time. During the storage of wheels, moisture penetrates between the bond matrix and the abrasive grains and weakens the bond. Rhodius has come up with a formula, HydroProtect that slows down the aging process by inhibiting the absorption of moisture for up to 10 months keeping the performance of the wheels almost constant after months of storage. This keeps the cutting performance at a permanently high level from the manufacture of the wheel through to the actual time of use.

**Products in the HydroProtect line are XT8 EXACT, XT35 CROSS, XT10, XT20, XT38, XT67 and XT24. Get that extra protection for your performance!**

# XTRA THIN CUTTING WHEELS

Full line catalogue available at [www.ciecanada.com](http://www.ciecanada.com)

**RHODIUS**<sup>®</sup>  
MADE IN GERMANY  
SINCE 1952

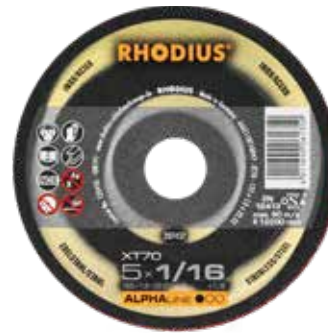

## XT67 / XTK67

PROLINE ●●●

**For steel or stainless steel**

- Long life & fast cutting times
- For thin walled tubes, profiles and sheet metal
- Reliable and precise
- Outstanding price-performance ratio

	TYPE 1 thickness x arbour 3/64" x 7/8"	TYPE 1 thickness x arbour 1/16" x 7/8"	TYPE 27 thickness x arbour .045" x 7/8"	BOX QTY

14"	A2180703	A2180704	10

# FINISHING The FS1 FUSION

Specially Designed For Grinding Fillet Welds

Combines the long life of a grinding disc with the fine grinding pattern of a flap disc.

### Material

- Rust & acid proofed steels
- High tensile / high alloyed steels
- Hardened steels
- Structural steels
- Tool steels
- Grey cast iron
- Hardox

### Application Examples

- Fillet weld treatment
- Surface grinding
- Burr removing
- Welding seams
- Weld seam preparation

Two different thicknesses to suit your application and **three** grit levels to suit your finishing.

TYPE 27 arbour x 7/8"	40G	60G	80G	BOX QTY

# XTK35 CROSS THE ORIGINAL XTRA THIN GRINDING & CUTTING

## BRAINTOOLS®

**The XTK35 CROSS delivers extra thin precise cutting and light grinding with one disc**

For steel or stainless steel

- One wheel - **THREE Operations: cuts, light grinds & deburrs**
- Eliminates changing wheels = fewer work interruptions
- Extremely safe due to 3 full layers of fibreglass reinforcing
- Available in 4 1/2" & 5"

ONLINE DEMO  
ciecanada.com

Three full layers of reinforcing composing the XTK35 Cross guarantees high stability and maximum on the job safety.

TYPE 27 thickness x arbour 5/64" x 7/8"	BOX QTY
4 1/2"	A3180651 25
5"	A3180652 25

**KSM** ALPHA LINE ●●○

**For steel**

- Very aggressive wheel for carbon steel
- Long life with fast metal removal

- Smooth grinding
- Longer life
- Faster metal removal

TYPE 27 thickness x arbour 1/4" x 7/8"		
+	□	BOX QTY
4 1/2"	A1180507	25
5"	A1180508	25
6"	A1180517	10
7"	A1180509	10

**Grinding Discs**

The hardness of a grinding disc determines its lifetime as well as its stock removal and its stock removing efficiency.

A soft grinding disc is much more aggressive and offers a comfortable grinding behaviour.

A hard grinding disc is characterized by its long lifetime. We recommend hard grinding discs for edge grinding. Soft grinding discs can be used for surface grinding.

Rhodius grinding discs are made in a thickness of 7mm and with a special top layer. Grinding discs, unlike flap discs are characterized by their high stock removal and cutting efficiency as well as lifetime.

**RS24** TOP LINE ●●●●

**For aluminum/  
non-ferrous metals**

- Does not clog or load up
- High stock removal and good life

TYPE 27 thickness x arbour 1/4" x 7/8"

**Designed for tough demanding applications**

Material:

- Steel
- Stainless Steel
- Non-ferrous metals

Application:

- Rust/ scale removal
- Weld spatter
- Deburring
- Cleaning castings/ forgings

**PROFLEXX**

Wire brushes are used in many industries including: Pipeline construction, foundries, ship building, oil and gas industries and construction. These brushes are available in either **Carbon Steel** wire or **Stainless Steel** wire.

# WIRE WHEEL BRUSHES

## TWIST KNOT BEVEL BRUSH

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
4"	.015"	20,000	G1220110	
5"	.020"	15,000	G1220111	

- Simply incredible for tough applications including paint, scale and corrosion
- Angle brush for hard to reach areas - edges, corners and internal corners
- Providing the convenience of both a cup and wire brush

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
4"	.015"	20,000	G1220133	
5"	.020"	15,000	G1220134	

## TWIST KNOT WHEEL 2-3 times the life of the competition

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
4 1/2"	.020"	15,000	G1220008	
5"	.020"	15,000	G1220014	
6"	.020"	10,000	G1220013	

- Excels on large diameter pipe for cleaning of root and cap welds
- Removing residues of adhesive, hard scale rust and paint
- Extra long life, heavy duty construction

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
4 1/2"	.020"	15,000	G1220027	
5"	.020"	15,000	G1220033	
6"	.020"	10,000	G1220032	

## STRINGER BEAD

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
4 1/2"	.020"	15,000	G1220006	
5"	.020"	12,000	G1220011	
6"	.020"	10,000	G1220010	

- Designed for narrow root passes and restricted access applications
- Heavy duty construction gives extra long life

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
4 1/2"	.020"	15,000	G1220025	
5"	.020"	15,000	G1220019	
6"	.020"	10,000	G1220030	

## CUP BRUSHES

### CRIMPED WIRE CUP

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
3"	.012"	12,500	G1220051	

- For light removal of paint, rust, etc.
- No aggressive scoring of the workpiece

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
3"	.012"	12,500	G1220081	

### TWIST KNOT CUP

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
3"	.020"	12,500	G1220041	

- Heavy duty removal of rust, paint, weld splatter, etc.
- Tight twist gives extra long life

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
3"	.020"	12,500	G1220062	

### TWIST KNOT BRIDLED CUP

5/8-11 arbour

wire size			RPM	CARBON
+	Ø	(RPM)		
3"	.020"	12,500	G1220091	
4"	.020"	8,500	G1220093	

- Tight twist and bridle gives aggressive action for removal of heavy spatter, rust, etc.
- The support ring of the special design prevents excessive spreading of the fill material
- When worn down simply "knock off" the bridle to expose more brush length

wire size			RPM	ST/STEEL
+	Ø	(RPM)		
3"	.020"	12,500	G1220102	
4"	.020"	8,500	G1220104	

## autoCROSS 3 KIT

Includes hardshell transport case to protect unit

### PULSED SELF-LEVELLING CROSSLINE LASER

- Self levelling crossline laser
- Horizontal and vertical lines can be switched on separately
- Take unit out of self-levelling mode and lock line in place allowing to set unit in any angle
- Accuracy 3mm/10m (.12"/ 32')
- Indoor/outdoor range with **optional** receiver 30 m (100')

L2654KLPP

## uniLASER AHV KIT

### SELF LEVELLING CONSTRUCTION LASER

- For horizontal and vertical applications with plumb beams up and down
- Indoor/outdoor range with receiver 300 m (1000 ft)
- Accuracy 3mm/30m (.12"/ 98')
- Battery life 20 hours
- Complete set with receiver and remote control in a stable plastic storage and transport case

L2654808AHV SET K3

## autoMAGIC

### CROSSLINE AND 5 BEAM LASER ALL IN ONE

- Self levelling mechanism
- Automatic out-of-level sensing
- No beam shaking when bumped
- 5 laser beams at a time
- Indoor/outdoor range with **optional** receiver 50 m (150')
- Accuracy 3mm/10m (.12"/ 32')

L2654KLP5SP

## NAUTILUS IPX7

Includes carrying bag

### SELF LEVELLING WATERPROOF

- Horizontal operation
- Indoor/outdoor range with receiver 500 m (1500')
- Accuracy 2.6mm/30m (0.1"/ 98')
- Battery life 50 hours
- Robust aluminum casing
- Shock protection

L264803AHSET

## topoMAT IPX5

Includes robust carrying case and inclinometer

Lockable 90° tilting joint

### SELF LEVELLING/ONE PERSON OPERATION

- **Rainproof**
- Automatic laser-stop function in case of change in position
- Horizontal/vertical operation remote control
- Indoor/outdoor range with receiver 500 m (1500')
- Accuracy 2.6mm/30m (0.1"/ 98')
- Battery life 70 hours
- Shock protection

L264802NSET

# TAPE MEASURES

Full line catalogue available at [www.ciecanada.com](http://www.ciecanada.com)

## RADIUS case

mm/inch

### LARGE CRANK ARM AND PARK POSITION

- Easy grip soft touch surface
- Slide bearing shells for highest winding comfort

#### Radius Case White Enamelled

20m	L3501215020 BHF
30m	L3501225030 BHF

30m	L3505325030 BHF
50m	L3505345050 BHF

## ERGOLINE frame

Frame style varies according to order number

mm/inch

### BALL BEARINGS FOR HIGHEST WINDING CONVENIENCE

- Park position for crank arm and tape commencement ring
- Ergonomically shaped frame with easy to grip, soft rubber protrusions

#### Ergoline Frame White Enamelled

30m	L3301025030 BHF
50m	L3301035050 BHF

#### Ergoline Frame Isolan

30m	L3305035030 BHF
50m	L3305045050 BHF

SCRATCH RESISTANT

### White Enamelled

Concave, tempered springblade steel with anti-corrosive phosphate coating

### Isolan

Carbon steel Yellow synthetic resin, polyamide coating

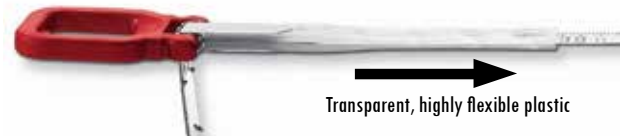

**FLEXTOP** tip made of transparent, highly flexible plastic, reliably prevents breakage at the tape commencements.

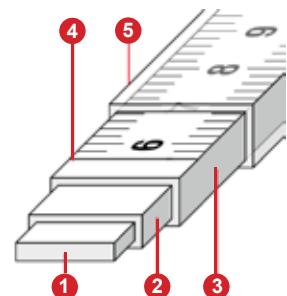

For all steel measuring tapes 13mm, pull ring made of break-proof plastic, 2 notches for weights.

**BHF:** Hooking with FLEXTOP tip, measurement commencement B.

Transparent, highly flexible plastic

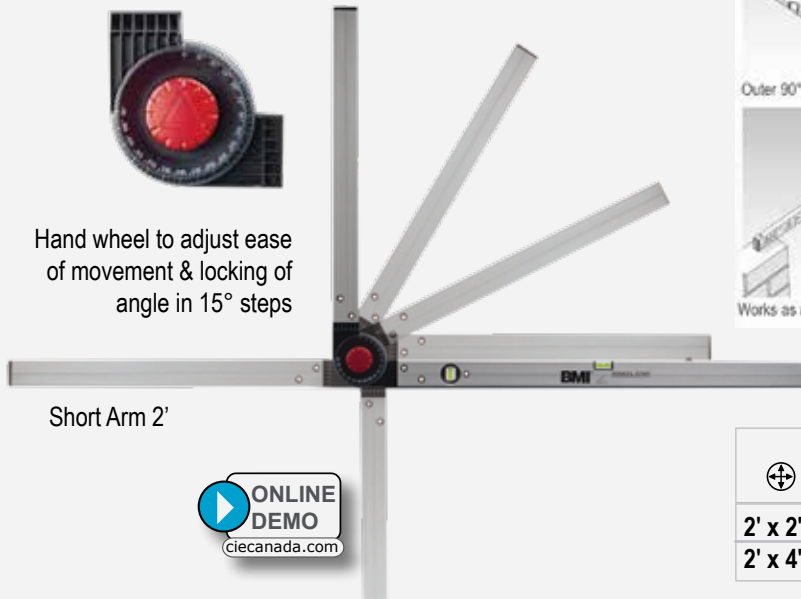

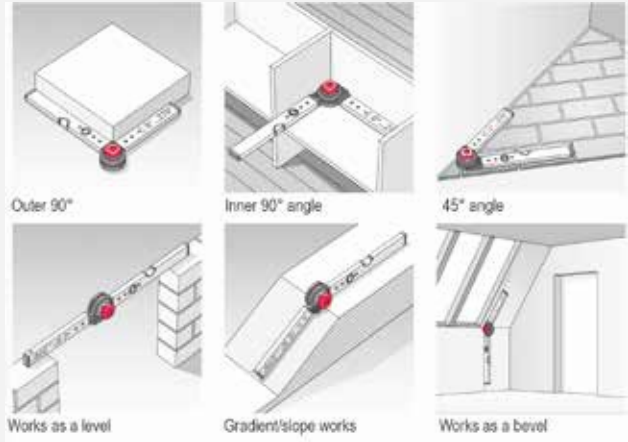

### TAPE STRUCTURE

1. Concaved, tempered spring blade steel of high stability
2. Anti-corrosive phosphate coating
3. Synthetic resin, stoved
4. Printed graduation with red meter figures
5. Clear varnish to protect against wear, stoved

## WINKELSTAR MULTIPLE ANGLE SQUARE

- Foldable multiple angle square can be adjusted between 0° and 270°
- Angles can be fixed in 15° steps.
- Built-in vials enable it to be used as a spirit level.
- Easy to transport.

**High Performance**

**APPLICATION**

- Heavy duty sanding
- Weld removal
- Sheet metal
- Steel plates
- Edge deburring

**Steel / Stainless Steel**

- Zirconia full resin bonded fibre discs
- Sharpens itself in use
- Cool grinding action reduces glazing and loading

**ZFR**

For steel, stainless steel, cast iron and structural steel

**4 1/2" x 7/8" ⊕**

**FLEXIBLE**

**ADVANTAGES**

- High quality backing pad
- Suitable for heavy duty use
- Flexible
- Extremely wear resistant

For steel, stainless steel & non-ferrous metals

⊕	ARBOUR	Ⓜ

**BACKING PADS**

**TURBO**

**ADVANTAGES**

- Heavy duty back pad
- Extra cooling ribs and air vents provide cooling action
- Air flow cooling action extends life of the disc
- Especially effective on stainless steel and alloys

For steel, stainless steel & non-ferrous metals
